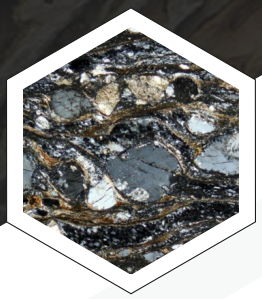
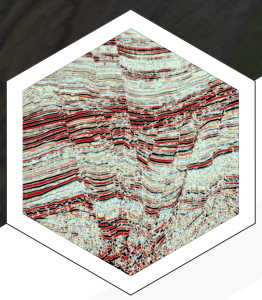
CETEG CONFERENCE 2023

19th Meeting of the Central European Tectonic Group
26th Meeting of the Czech Tectonic Studies Group

Registration:

Deadline: 15th March





April 12-15, 2023
Kazincbarcika, Hungary

Umbrella topic:

From rifted margin and basin formation to subduction and nappe stacking

with special focus on the

Permo-Mesozoic structural and stratigraphic evolution of the Inner Western Carpathians (NE Hungary, S Slovakia)

All disciplines of geosciences are highly welcome, let it be field geology, geomorphology, geophysics, basin analysis, petrology, geochemistry, sedimentology or paleontology, with implications on structural and geodynamic problems.

Registration:

Professionals: 225€
Students: 150€
Excursions: 40€ and 30€

Accommodation is not included in the registration fee, however, different options are offered on during registration.

Program:

- April 12th: Pre-conference field trip
  From rifted margin to nappe stacking: Permo-Mesozoic structural evolution of the Aggtelek and northern Rudabánya Hills
  Evening: Welcome party (HBH Sörház)
- April 13th: Oral and poster scientific sessions
  Evening: Wine and pálinka tasting
- April 14th: Oral and poster scientific sessions
  Evening: Conference dinner and evening party (Ambrózia Restaurant)
- April 15th: Post-Conference field trip
  From Triassic rifted margin sequences to Jurassic deep marine sediments (Aggtelek and southern Rudabánya Hills)
